

Vegas Verdes Elementary School Modernization

LAND DEVELOPMENT

Owner

Clark County School District

Client

KGA Architecture

Location

Las Vegas, Nevada

Project Duration

October 2011 - Summer 2012

Estimated Construction Cost

\$8.8 million

Service | Quality | Innovation

Sigma provided civil engineering services for the renovation of a fifty year old school on an 8.1 acre site that involved HVAC, plumbing, and ADA improvements. This project included utility design for new water connections, fire hydrants, fire protection loop, backflow preventers, and sewer connections. The parking lot was also seal coated and re-stripped. In addition to the improvement plan set preparation, Sigma also provided project specifications and a construction cost estimate. Coordination was required with numerous departments at the City of Las Vegas as well as the Las Vegas Valley Water District.
